[IMMUNOCTEM COVERS]

THE NATURAL ANTI DUST MITE BARRIER

- Immunocitem has developed a **woven cloth free of any acaricide treatment**. It constitutes a **highly efficient** natural protective barrier against dust mite allergens (residual quantity below the detection threshold), as shown by the study conducted at **the immuno-allergy laboratory of Tenon Hospital (AP-HP)**, Paris, published in december 2006 in the review « Revue Française d'Allergologie et d'Immunologie Clinique », available on www.immunocitem.fr.
- The Immunocitem dust mite cover wraps the mattress completely by means of a **zip-fastener on three sides (two widths and one length)**, thus ensuring a very easy handling. Then, you need only **to replace your usual sheet**. The same principle applies to duvets and pillows. **The high comfort** of these covers (attested by **the breathability label** of Hohenstein Institute, Germany) allows a constraintless use, either in prevention or in treatment of dust mite allergy.
- **The absence of any acaricide chemical treatment** ensures a long-lasting efficiency throughout washings, as well as an **excellent harmlessness (Oeko-Tex® label** from the French Institute for Textile and Clothing).

[IMMUNOCTEM COVERS]

- **High quality French manufacturing.** Our fabric is produced in **the Vosges** area which is well-known for its expertise in technical fabric manufacturing and the quality of its **woven cloth with a unique touch**. Immunoctem covers are entirely manufactured in France. Covers are provided with a wide strip of material under the zip-fastener, and all inner seams are reinforced by a bias binding in order to reach an optimal shielding.
- Our fabric, with a GSM of **about 160 g/m²**, will thus bring you long-lasting satisfaction. It **does not pill¹**, does not slip, does not make noise. It offers an excellent abrasion **resistance²** and an insignificant **shrinking³**, even after multiple washings at 60° C.
- Immunoctem covers are covered by a 10-year warranty.

[IMMUCONFORT MATTRESS]

THE ANTI DUST MITE MATTRESS

FREE OF ACARICIDE CHEMICAL TREATMENT

Immunocem has developed the Immuconfort mattress to offer you an excellent comfort as well as a real anti dust mite protection **without any acaricide chemical treatment**.

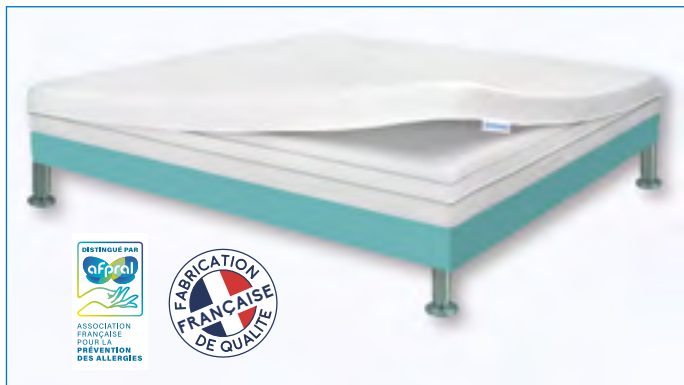

THE NATURAL ANTI DUST MITE PROTECTION

- **The unique design** of the mattress, in particular the absence of padding material (wadding, foam, wool...), limits dust mite proliferation.
- The Immuconfort mattress **is fitted with the Immunocem anti dust mite mattress cover** which forms a highly efficient natural protective barrier against dust mite allergens (residual quantity below the detection threshold), as shown by the study conducted at the immuno-allergology laboratory of Tenon Hospital (AP-HP), Paris. Cover completely removable by means of zip-fasteners on three sides, and washable at 60°C.
- Thanks to **this double protection**, the Immuconfort mattress is a unique product, one of the best anti dust mite mattresses.

IMMUCONFORT MATTRESS

OUTSTANDING COMFORT

- The mattress, with a 15 cm optimal thickness, is comprised of a **single-piece core of 100% synthetic latex**, which is naturally anti dust mite. **No glue** is used.
- Our technology permits to extend a comfortable welcome thanks to a **surface layer made of softer latex, while ensuring an excellent support in depth**. The Immuconfort mattress is available in two kinds of comfort : **balanced and firm**.
- Placed on a wood slat foundation, the Immuconfort mattress offers you a **very high breathability** as well as an optimal comfort/support mix. Entirely reversible, it provides perfect **sleeping independence**. It is one of the few mattresses entirely covered by the **Oeko-Tex label**, a guarantee of **excellent harmlessness**.

HIGH QUALITY FRENCH MANUFACTURING

- The Immuconfort mattress has been submitted to various crushing resistance tests, in particular 30000 back and forth passes of a 140 kg roller during 72 hours, according to NF standard EN 1957. Results show an **outstanding resistance**. Watch our videos on www.immunoctem.fr.
- Our mattresses are delivered at their real size (neither compressed nor rolled). The Immuconfort mattress is covered by a 5-year warranty. It should be placed on a slat foundation.

HOUSE DUST MITES ?

They are microscopic spiders invisible to the naked eye, which can be found in carpetings and curtains... but their favourite place remains the mattress.

A mattress can contains several millions of them. A dust mite lives approximately two months, and a female lays from 25 to 50 eggs every three weeks.

Dust mites produce allergizing particles **responsibles for the development of numerous allergies in children**. The small size of these particles facilitates their inhalation.

HOW CAN THEIR PROLIFERATION BE LIMITED ?

First of all, good hygienic rules must be respected :

- The temperature in the bedroom should be limited to less than 19° C and the room should be aired frequently, even in winter.
- Sheets, pillow-cases and duvet-covers should be washed regularly. A wood slat foundation is recommended.
- Dust should be eliminated by frequent vacuuming (HEPA filter) ; carpeting should be avoided.
- More advice on **www.immunoctem.fr**

In spite of that, it is difficult to limitate the proliferation of dust mites. Most of mattresses and bedding covers are submitted to an anti dust mite treatment, that is, they are impregnated with a natural or synthetic acaricide chemical product which will kill dust mites. This treatment, often short-lived, is not always innocuous due to the potential toxicity of products (biocides) used.

Moreover, it does not address the real issue, since dust mites, even dead, remain allergizing. Immunoctem has thus developed two ranges of products free of acaricide chemical treatment : Immunoctem covers which fit to your existing bedding (mattress, pillow...), and the Immuconfort mattress which comes already fitted with the Immunoctem mattress cover.

OUR CUSTOMERS TALK ABOUT US

IMMUNOCTEM

Our prices are tax exclusive, for shipment from mainland France, and do not include local VAT, customs duties, costs of import formalities... which remain at your expense upon receipt of the parcel. These are to be paid, depending on the case, either directly to DHL or to the local post or customs office. People with incontinence should add a waterproof mattress protector on the mattress cover. Do not use mattress covers on sofa beds, folding or lifting beds. Do not use a steam cleaner on the cover. Immuconfort mattresses should be placed on a slat foundation. Immunoctem covers are shipped year-round, without interruption, by DHL Express or postal service. For delivery in Europe by DHL, it takes approx. 2 business days between the shipment of your order and the receipt of the parcel (delivery time is not guaranteed). The delivery time of a mattress in Europe is approx. 2 to 3 weeks (excepted in August), depending on the country. Delivery is made by specialist carrier and only at the doorstep. You are required to be present when the mattress is delivered, otherwise Immunoctem reserves the right to charge the costs of second delivery. It is the Client's responsibility to check the good condition of the merchandise at the time of delivery and to make all usual reserves on the delivery slip, if needed. In this case, it will be necessary to warn us within 24 hours (tel., e-mail, postal mail). The contractual warranty of 10 years for Immunoctem covers and 5 years for the Immuconfort mattress applies in the context of family (not professional) use, in compliance with precautions for use and care instructions, except normal wear of the product, and does not exclude the benefit of legal guarantee relating to hidden defects. The invoice serves as a certificate of guarantee. At receipt of the product, you have a right of withdrawal of 15 clear days to return it to us in its original packaging, unopened. Transport costs, transport organization, customs duties and various taxes will be entirely at your expense; see our General Conditions of Sale on www.immunoctem.fr and contact us to know the return address, which is not that of our registered office. In case of exchange request, you should return the product (unopened packaging) at your expense (transport and customs duties), and we will charge you the shipping costs of the new parcel according to the weight and the destination. In accordance with the French Law on Information Technology and Freedom of January 6, 1978, you are entitled to access and modify your personal data, of which we are the only recipients. Any order is subject to our acceptance and deliverable only within the limits of available stocks. Prices valid until December 31, 2023 and subject to change without notice depending on the evolution of VAT, the price of raw materials and the amount of the eco-participation. Immunoctem – SAS with a capital of 8000 euros – Registered office: 104 rue Nollet – 75017 – Paris – RCS PARIS B 483 558 268 – VAT number: FR46 483 558 268 – APE 1392Z. By express agreement, jurisdiction is attributed to the courts of the registered office of Immunoctem (Paris), regardless of the place of delivery and the accepted method of payment, and even in case of a warranty claim or multiple defenders. Relations with the buyer are governed by French law. The fact of placing an order implies acceptance of these General Conditions of Sale, which can be consulted on www.immunoctem.fr.
